To the LSF Solutions team,

I would just like to express my gratification and thanks to the LSF Solutions team at Pentana Solutions.

After Rachel contacted our company regarding a quote on our pre printed items, we took her up on the offer. Happy with our current local supplier we were interested to see how the market compared in price.

LSF communicated well with us, letting our staff know what was happening even with the quote.

Rachel's quote was fast and professional we learnt we could save 23% in our pre printing needs. We are now reviewing the variety of products LSF Solutions can supply us with.

We look forward to working closely with the LSF Solutions team in the future, and highly recommend them to supporting business we work with.

Craig Caspersz
Director
Hospitality Equipment Services.
