To LSF Team,

At the start of August we took over our 3rd dealership bringing the total number of franchises to 6 (Holden, Isuzu, Honda, Mazda, Subaru and Peugeot). With the purchase of the new franchise comes the administrative tasks such as ABN number, Bank accounts, stationary etc. but one thing we really looked into was printing cost, mainly pre-printed stationary.

It was then that we spoke to the team at LSF (laser smart forms). They came out and had a look at our current pre-printed stationary and printers and sat down with us and put a proposal to using Laser Smart Cards. In the proposal was over sixty forms including Statements, Invoices, Repair Orders, Cheques, Buyers order Forms etc. for all franchises.

The initial rush was to get the new franchises up and running as soon as possible, the team at LSF came through with a minimum of fuss and we were up and running with Laser Smart Cards on day one.

Since then we now have all our franchises printing with Laser Smart Forms. Not only are we saving on pre-printed cost, but we never run out of stationery.

Laser Smart Forms the way of the future.

Regards,

Lindsay Trounce
