

Web-IT Yourself

Another Pentana Solutions CRM Solution

Website Design at a Fraction of the Cost

Increase Revenue and Customer Retention

Pentana Solutions “Web-IT Yourself” is a customised website solution for automotive dealers. By offering a powerful content management system your website never needs to be out of date. With Web-IT Yourself you can create new pages in minutes. With a built in rich text editor, updating and formatting text, and updating images on your site is simple.

Web-IT Yourself utilises the latest search engine technology to ensure your website gets superior search engine placement. In addition we submit your website to all major search engines including Google, Yahoo and MSN.

Web-IT Yourself features include staff extranets, used vehicle galleries, RSS feeds, parts and accessory catalogues, customer email broadcast and carservice.com.au integrated service bookings for ERA.

We always ensure our designs successfully extend your brand, and have a large suite of add-on products to help you generate a strong return on your investment.

Pentana Solutions stringent production methodology also ensures that your needs are met from start to finish. With a staged approach to our design and development, each step is submitted back to the customer for approval ensuring what we deliver is exactly what you want.
