Driving Success Through Innovation

PareX
The innovative parts platform.

PareX provides a virtual warehouse solution and several additional modules for the automotive industry, allowing participating merchants to:

• Reduce inventory obsolete
• Reduce backlogs
• Increase customer satisfaction
• Transform scraps cash

PareX operates in more than 50 countries and serves more than 5,000 dealers of brands such as Audi, Renault, Nissan, Mazda, Peugeot, Volkswagen, Ford, Toyota, Jaguar, Land Rover, Mercedes -Benz, Lancia Chrysler, Jeep, Kia and Citroen.

PareX Virtual Warehouse

The PareX Virtual Warehouse is a Dealer to Dealer online parts platform linking and compiling stock information of all participating dealers.

The virtual warehouse is linked with your Dealer Management Systems (or other stock system) for the regular upload of your stock data. PareX makes it easy to make your obsolete stock available to other dealers, while allowing you to find bargains or urgently needed parts with other dealers.

The virtual warehouse is our base product and can be extended with a wide variety of add-on modules for even more enhanced functionality.

It's that simple

1. Enter the number(s) of part(s)
2. If necessary, extend your search to the outside
3. Find the best offer
4. Find replacements
5. Make the request with a mouse click
6. Choose the shipping way.

More than 70,000,000 original parts available online.

Management information

PareX Management Information Online will provide you with online access and real-time statistical information of your dealership. With this information, you will gain insight on the revenue and additional savings relating to purchases made through the Parex Virtual Warehouse. All this data is exportable to PDF, Excel, CSV and many other formats.

Payment

The Payment module allows you easy receipt of payment for parts orders through PayPal. Your business PayPal account will be linked to and integrated with your own PareX account, providing you and your customers with a simple way to pay.

Service and Support

A team of highly trained professionals are available to help and support you each working day in more than 10 different languages. Our team supports the functioning of our systems, services, and other issues related to PareX. You can also request information on international payments or ask us for help to introduce our products in your environment.

Logistics

Through the PareX Virtual Warehouse, your logistics module fully integrates with some of the most important logistics operators in the world, such as UPS and FedEx. This module gives you the opportunity to book shipments at attractive prices, effortlessly and directly from PareX, without having to contact the shipping company.
