

**There's a solution to
discover vehicle history
anywhere you have
internet access.**

**AutoCheck will provide
you with this history!**

AutoCheck

Generate Australian Personal Property Security Register Certificates and CarHistory reports.

What is AutoCheck?

AutoCheck enables a salesperson or administration officer to quickly generate Personal Property Security Register Certificates for your dealership.

How do I benefit?

AutoCheck protects your dealership against unknowingly acquiring:

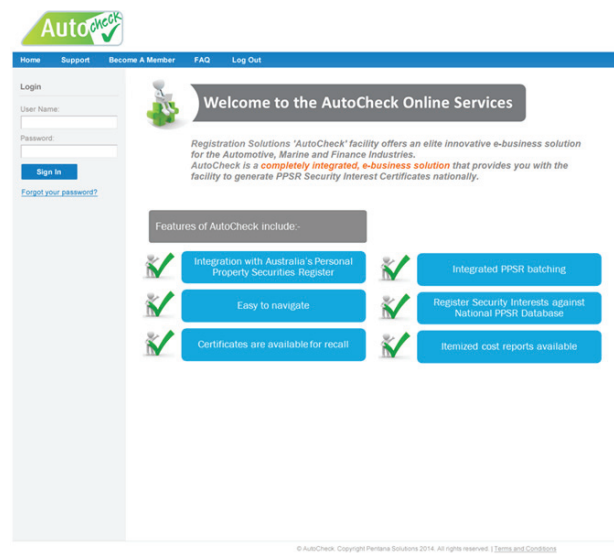

- Encumbered Vehicles
- Written-Off or Rebirthed Vehicles
- Stolen Vehicles
- Damaged Vehicles

You can access AutoCheck from anywhere providing you have internet access. Using any internet browser, users can access easy to navigate screens to generate and view certificates that are available to recall for up to six months. The mobile friendly site offers a great user experience.

Suitable for those retailing cars, bikes, commercial vehicles and marine equipment, AutoCheck increases the efficiency of the process of purchasing inventory you plan to sell.

Tell me more.

AutoCheck is designed to save your business time and money. This cost effective and innovative solution is designed for the motor industry and those who use the product reap rewards. Ensure every vehicle you acquire is protected against the unknown with AutoCheck.
