

**Transfer all contact
details from a driver's
licence in one click.**

**Let us introduce you to
our Licence Scanning
solution.**

Driver's Licence Scanning

Import all driver's licence details into your DMS with ease.

What is Licence Scanning?

It's our innovative solution to importing contact details quickly and accurately into the DMS from a driver's licence. Dealership efficiency will be increased and customers won't need to stand around awkwardly waiting. By using the licence scanner hardware, all details from the licence are scanned directly into eraPower once you give the approval.

What are the benefits?

Accuracy is increased and keystrokes are minimised as all fields on the licence are imported.

By automatically searching existing entities, Licence Scanner avoids duplicate entries while creating new leads on the spot. All licences are validated based on expiry date and provide a warning if necessary.

Its ease of use makes our licence scanning solution a great step forward to increase your dealership efficiency. Scan the licence to display a pop-up screen showing the details brought over from the licence. Simply glance over the details to ensure they are correct and click continue to import the data.

Tell me more.

Licence Scanner has been developed for all states and territories within Australia and can be used across the dealership departments to ensure you're entering the correct details into the DMS.

The screenshot shows a software window titled "Licence Scan - Store320 Development". The main area is a form with the following fields:

Licence Details				
Licence Number	Card Number			
987654321				
Name	Address 1			
JANE CITIZEN	FLAT 10			
	Address 2			
	77 SAMPLE PARADE			
Expiry Date	Date Of Birth	Suburb		
20-05-2019	29-07-1983	KEW EAST		
Class/Type	Donor	Conditions	State	Postcode
CAR		#BEAMXYZ	VIC	3120

Below the form, there are two preview windows:

- Drivers Licence:** Shows a sample Victorian driver's licence for Jane Citizen, Licence No. 987654321, Expiry Date 20-05-2019, Date of Birth 29-07-1983, Licence Type CAR, and Conditions #BEAMXYZ.
- Secondary Identification (if required):** Shows a Medicare card with number 1234 56789 0 and validity 11/10.

Buttons at the bottom include "Capture Licence", "Capture Secondary ID", "OK", and "Exit".
